Dublin, Ireland, July 27.—Dublin and the greater part of Catholic Ireand today was greatly excited over vesterday's conflict between the regular troops of the British army and the Irish Nationalists, which resulted in the killing of four persons and the wounding of many others. Forty of those wounded still were in hospitals

Day had dawned before the police succeeded in dispersing the crowds marching through the streets and look-ing for soldiers of the second battalion of the King's Own Scottish Borderers, on whom to inflict vengeance for the fatal events of yesterday.

The crowd attacked the royal barracks, where the Borderers are stationed, and clamored for the soldiers to come out. Finally the mob kicked down a gate of the barracks and fired a couple of shots upon which bugles were sounded, the police came on the scene and the crowd was dispersd. The Nationalist leaders take the most serious view of the affair and will demand reparation from the government.

Degrees But Humidity Was Unusually High/

"It's not very hot today," quoth the Weather Man Monday afternoon as he pulled down the south windows of his eerie on the tenth floor of the American National Bank building to keep out the breeze, and slipped on his coat. "Why, it's four degrees cooler than it was on July 5, when the thermometer reached 95 degrees, and the breeze today is delightful-too much breeze, in fact

But the weather man is not a competent judge of a really warm day, according to the views of hundreds of Pensacolians who sweltered in a temperature of 91 degrees Monday. The trouble with the weather yesterday was the humidity, which was approximately 85 per cent on the average, although the recording instruments at the weather bureau registered the humidity at 87 per cent at 7 a. m. On July 5, with the temperature at 95, the

"Sticky" weather is due almost wholly to the humidity of the atmosphere upon the saturation of air with moistire. Complete saturation is reached at 100 per cent, and precipitation follows With the average humidity at 85, the evaporation of perspiration is almost nil, and this condition, with a relativehigh thermometer, is responsible for the greatest suffering during the summer months.

Street thermometers during Monday registered anywhere from 98 to 100 degrees in the shade, and one or two went even higher than that. But officially, the maximum temperature in - President Pensacola yesterday was 91 degrees at 11 o'clock a. m. Checking of Names Was Undertaken Early Monday Morning.

Suffrage Convention NO INFORMATION WAS GIVEN OUT

> Petition Filed at 4:37 p. m. Saturday Afternoon By Recall Committee-The Greenhut Petition Expected Today.

> The formal petition demanding the resignation or recall of City Commissioner Frank R. Pou was filed in the office of the Clerk of the Circuit Court of Escambia, as provided by law, at 4:37 o'clock Saturday afternoon. Checking of the names began Monday morning and continued throughout the day, and it is stated that at least a week will be consumed in this work. The law provided that the clerk of the circuit court must check the petition within ten days then, if the petition is found to comply with the law, he must formally demand, on the part of the signers, the resignation of the commissioner. If the resignation is not forthcoming the names of the commissioner at whom the petition is aimed, automatically goes upon the ballot at the election which the city commissioners must call at the next meeting after the receipt of the petition, to be held in not less than 30 or not over 40 days from the date of

COMMITTEE RETICENT. Notwithstanding the fact that the petition demanding the recall of Commissioner Pou was filed Saturday, information to this effect was not given out, the statement being officially Maximum Temperature 91 made in effect, that the petition in the case of Commissioner Pou would be filed Monday, in all probability, and that the petition demanding the recall of Commissioner Greenhut would be flied either Monday or Tuesday. At the office of the clerk of the circuit court Monday there appeared to be some relicance over the matter, and when the direct question was asked by a representative of The Journal az to whether the recall petition had been filed, no direct answer was immediately forthcoming. Later The Journal was advised that the petition had work involved.

The checking of the petition volves an immense amount of work and this is in charge of Deputy Clerk the list has to be checked with reference to the polling lists, and this is extremely difficult in view of the fact that many of the voters have moved since the date of the last city election, which is the basis of inquiry by the clerk in the verification of the petition. The balance of the week will be consumed in the work of checking and it is probable that the demand for the recall of Commissioner Pour will be presented to him and to the numidity averaged about 75 per cent. other city commissioners in time for the calling of an election at the meetting of that body on Monday next. In and the percentage figures are based that case the election will, according to law, be held on some date between

September 2 and September 12. MR. POU NOTIFIED. Commissioner Pou was notified of the filing of the petition late last night by a representative of The Journal and asked if he had any statement to make in connection with the matter.

"I cannot proceedings should be resorted to by those who have been engineering this campaign," said Commissioner Pou, and am a little bit surprised that so many conflicting statements have been made in regard to the filing of the petition. Of course there is no question of the right of the qualified oters to ask a recall election if they see fit, and on the whole I am glad that the almost continuous agitation Thanks and Honor will be settled for good in the near future.
